Staff Text Message Consent Form

Program: RJM Systems LLC Work Coordination Texts

RJM Systems LLC offers its staff the option to receive day-to-day work coordination text messages — job schedule notifications, dispatch assignments, parts availability updates, and operational reminders — sent from the office to staff mobile phones.

Program terms:

- **Message frequency:** typically 1 to 5 messages per workday. Frequency may vary.
- **Message and data rates may apply.** Standard rates from your mobile carrier apply.
- **Opt out anytime:** reply **STOP** to any message to stop receiving texts. Reply **HELP** for assistance, or call the office at (610) 333-7278.
- **Opting in is entirely optional and voluntary.** If you choose not to opt in, or later reply STOP, you will receive the same work information by phone call or Slack instead.
- Consent is not a condition of purchasing any property, goods, or services.
- Your mobile number will never be shared with or sold to third parties for their marketing purposes.

Consent statement

I voluntarily choose to receive work coordination text messages (schedules, dispatch assignments, parts updates, and reminders) from RJM Systems LLC at the mobile number I provide below. I have read and understand the program terms above, including that message frequency varies (typically 1–5 per workday), that message and data rates may apply, and that I can opt out at any time by replying STOP or get help by replying HELP.
